

REMARKS

Claims 1-3 and 5-19 are pending in the application. Claims 7, 8 and 12 have been withdrawn from consideration as being drawn to a non-elected invention. Claim 4 has been canceled without prejudice or disclaimer.

Claims 1, 18 and 19, have been amended to remove ring A and L¹ from Formula I. Claims 2, 3, 5-7, and 9-11, have been amended to be consistent therewith.

No new matter has been added. It is believed that this Amendment is fully responsive to the Office Action dated **May 19, 2004**.

In view of the amendments to the claims and remarks set forth below, further and favorable consideration is respectfully requested.

I. Claims 1-6, 9-11 and 13-19 are rejected under 35 USC §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The Examiner states that claim 1 is vague because in essence, if $m=0$ then ring A and L¹ no longer exist.

Claims 1, 18 and 19, have been amended to remove ring A and L¹ from Formula I. Claims 2, 3, 5-7, and 9-11, have been amended to be consistent therewith.

The Examiner further states with regard to claims 6 and 9-11, that the language “ring B represents (I-3) or (I-4) which may be substituted with a halogen” is vague because when ring B represents (I-3) in claim 1, the compounds are limited to the formulas listed in Claim 1, and thus the

compound substituted with a halogen in Claim 4 is broader than Claim 1.

Responsive to the foregoing, claim 4 has been canceled and claims 6, 9, and 11 have been amended to delete the language "which may be substituted with a halogen".

It is submitted that claims 1-6, 9-11 and 13-15 as amended, are now clear and definite within the meaning of 35 USC § 112, second paragraph. Accordingly, the Examiner is respectfully requested to withdraw this rejection.

In view of the aforementioned amendments and accompanying remarks, it is submitted that the claims are in condition for allowance, which action, at an early date, is requested.
